Summary

I'm a Computer Science and BAIS student with a passion for **coding** and creating **practical, user-friendly** applications. I've worked on projects like a tik-tac-toe game, to-do list, and realestate website, ethiopian movie and actors windows appication and have cloned websites to hone my **front-end skills**. With a solid foundation in **HTML, CSS, JavaScript, PHP,** I focus on **problem-solving** and building **responsive designs**. I'm eager to apply my skills in **real-world** projects and continue growing as a developer.

Skills

- **Front end development:** HTML, CSS, JavaScript, React Js
- **Back end development:** PHP, MySQL, Node Js
- **Version Control:** GIT, GitHub
- **Programming Languages:** C++, Java, JavaFx ,Visual Basics
- **Technical Proficiency:** Advanced user of Microsoft Office Suite (Word, PowerPoint, Excel).
- **Languages:** Amharic and English.
- **Team Collaboration:** Effective in collaborating with cross-functional teams to achieve project goals.

Professional experience

Sep 2024 - Sep 2024 | Prodigy InfoTech, Remote Internship

Outline

I contributed to creating user-friendly **web applications**, participated in website **cloning**, and improved **front-end designs**. This role allowed me to develop my skills in web development and collaborate with professionals on real-world projects.

Key Responsibilities

• Assisted in the development of web applications using **HTML, CSS,** and **JavaScript**

• Participated in cloning websites to practice **front-end development**

• Learned and applied **web development** best practices in **real-world projects**

Key Achievements

• Gained hands-on experience in building **functional** and **responsive** websites

• Enhanced my **problem-solving** and **collaboration abilities** in a professional environment
